We save rivers and
canyons and mountains,
and they save us.

Co-funded by
the European Union

Rivers are the lifelines of our planet. They provide drinking water, support agriculture, generate energy, and sustain ecosystems. Every year on September 28, people around the world celebrate **World Rivers Day** to highlight the importance of protecting our rivers and freshwater resources.

Rivers are the arteries of our planet.
Clean rivers mean healthy ecosystems, safe drinking
water, and sustainable communities.

Protect our rivers today for a better tomorrow.

World Rivers Day – September 28

Every river tells a story of life, nature, and sustainability.
Today we celebrate rivers and commit ourselves to protecting them.

Clean rivers = Healthy planet

Let's protect our rivers for future generations.

World Rivers Day reminds us that **protecting rivers** is a **shared responsibility**. By **reducing pollution**, **conserving water**, and **supporting sustainable environmental practices**, we can help preserve these vital **natural systems**.

SAVE OUR RIVERS

Millions of people depend on rivers for drinking water, food, and energy. Protect rivers today for a sustainable tomorrow.

CLEAN RIVERS = HEALTHY FUTURE

Rivers are essential for biodiversity,
agriculture, and human survival.

Protect them for the next generation.
