

WORLD WATER DAY

22nd March

Save water

Save Earth

Co-funded by
the European Union

The Water on The Planet is in Our Hands

70% Of The Planet is water,
let's Not Lose it

33rd World Water Day

A stylized world map in light blue is centered in the background. Overlaid on the map is a large, faint circular graphic with concentric rings in shades of blue and green, resembling a ripple in water.

WORLD WATER DAY

22nd March 2026

Stylized blue waves of varying shades are at the bottom of the poster.

Save water, save life!
